

Actual Information

Dear community,

With today's statement we want to make it absolutely clear that we are an active company. Our company acts exclusively in the sense of the terms and conditions. Everyone read and accepted these before investing and confirmed this.

Threats, even life threats, are spoken against management and even against customers who just made recommendations like everyone else. We want to make it clear here and now that ALONE the company has access to finance and responsibilities in connection with the current company.

We will not allow any of these threats to continue, and we will absolutely delimit any behavior of this nature.

The situation is difficult. And the fact that such things happen only makes it take longer. We are fixated to restart the system and we ask you all to wait for this process now.

We want the system to continue, but we can only do that together. The alternative would be that we pay out the ROI guarantee in accordance with our terms and conditions. There are 18 months from the start of the investment. We cannot imagine that the goal is to wait several months before we can make withdrawals.

That is why we ask for your understanding of the situation for the last time today. We are working flat out to get things under control and will only be able to guarantee the fastest possible payments in this way.

We will send you evidence of a large part of the funds in the Criptify portfolio in the attachment and we hope that this gives you some confidence so that this escalating situation relaxes at first and we do the necessary work in peace and deliberation to restart the system.

We thank you for your approval and support.

sincerely
